

ROLLING MILL TO OPEN UP TO-MORROW

Both Muck and Finishing Mills
To Start Operations—Open
Heath Furnace Will Be
Ready About the 15th—Pros-
pects Good.

Following an agreement arrived at
yesterday afternoon between the Iron
Workers' Union and representatives of
the Rolling Mill here, both the
muck and finishing mill at the plant
here will open up for business to-
morrow.

Owing to the absence of Manager
Perrin, who is out of town on business
for the company, Mr. Scully,
manager of the mill in Medicine Hat,
met with representatives of the union
yesterday afternoon, when the mat-
ter of the disagreement between the
company and the mill was discussed
thoroughly into a satisfactory settle-
ment arrived at. As a result ar-
rangements were made to start opera-
tions at the mill Friday morning at
7 o'clock.

We understand the company has a
good stock of material and that the
prospects are good for resuming the
old time activities at this plant in the
near future. The mill will start to-
morrow there will be about 150 men
at work and if present plans are not
interfered with an addition of about
fifty more will be added when the op-
erating furnace is put in operation.
Work on this furnace is progressing
favorably and, it is expected, will be
completed about the 15th of this
month.

Alfred Osgood Returns From Front

Still they come. Another of Red-
cliff's heroes, in the person of Alfred
Osgood, returned home on the special
train last Sunday morning and his
mother Redcliff mother was made
happy. Alf, looks quite natural and
says he is feeling quite fit. Although
he was one of Redcliff's earliest
enlistees he was in Ottawa when war
broke out and in January, 1915, he
enlisted with the 88th Battalion. In
July of the same year he left Canada
for Bermuda where his training was
sent to go through drill. From there
he went to England and after a few
months went on to France in August,
1916. During the month which fol-
lowed he went through some of the
hardest battles of the war, taking part

NOT FAIR.

The Civic Memorial Committee, of Medicine Hat, which was appointed to look into the matter of devising some scheme of providing a suitable memorial for their soldier heroes, appears to be of the opinion that the erection of a club room for the G. W. V. A. in their city would be very apropos. So far so good, but the committee also suggested that in order to make this possible the whole federal constituency of Medicine Hat be asked to contribute funds.

In the opinion of the Review this is hardly fair. There is scarcely a town, village or school district in the whole constituency that has not been represented in France and all just as anxious as Medicine Hat to do something in the shape of a memorial for those heroes; but they will all want a memorial of their own and in their own locality. They may not all be able to erect club rooms. It may only be a monument, or a marble slab in the school house, or a nucleus for a library, or anything else just to show their hearts are in the right place, but they will want their very own. Why then ask them to help make the big show for some other district when they have done what they could for their own.

SOME THREAT.

"The attention of the board of grain supervisors for Canada has been called to the fact that wheat is being sold by farmers in Ontario and Quebec at less than the fixed prices authorized by the board and guaranteed by the government of Canada. The board desires to inform the farmers and others concerned as to the consequences that may follow such illicit transactions. Trading in wheat at other than fixed prices is a punishable offence and the penalties are heavy."

The above appeared in the daily press yesterday and when one reads it he naturally stops to ask: "What does it all mean?" In these times when we hear so much about the high cost of living, here are government officials threatening to punish people for selling their goods below government set prices. Ye gods what next.

That editorial in the Medicine Hat News last Tuesday describing the wedding gown worn by the Princess Patricia must have been very interesting to its readers. Since this is an age of equal rights why slight the groom? An editorial on his uniform will now be in order. Come on "News," break up your sack cloth and ashes stuff. With ordinary business suits selling at \$60 there should be an opportunity for the raison editor to spread himself on a groom's wedding suit.

In addressing parliament the other day Sir Sam Hughes did some pretty plain talking. Among other things he referred to the demobilization of soldiers in which he ridiculed the "coding" which the government appeared to be offering to returned soldiers, and declared

that ninety-nine per cent of the boys would demobilize themselves if they were only left alone. With all his faults Sir Sam usually hits the nail right on the head.

GLEARING OVERSIGHT.

We notice this week that the school children are now being given monthly reports to be taken home and signed by the parents. This is a good idea as it gives the parents an opportunity of finding just where the children fall down, and, if they are concerned, of showing where they can help both the scholars and teachers make a better showing.

The idea of these reports is all right but we notice that they are compiled and printed by a firm in Chicago. In this there is ground for complaint for two reasons. First, the report could be made more satisfactory if compiled locally. In this way they could be simplified and at the same time deal more fully with what the public most desire to know. We do not blame the school boards for this oversight. These reports are handled by firms handling school supplies and these are the only places the boards can get them. The fault lies with the provincial department of education. The department should have these reports printed in this province and sell them direct to the school districts wanting to use them, at cost. In this way the middleman's profit would be saved and all the money in the transaction kept in the province.

While we are on this subject, we might remark, too, that a sample of these reports is also very noticeable in our Sunday schools in Canada. Have we found that all the Sunday school papers, leaflets and teachers' helps are printed in the United States. These papers contain stories telling all about the brave and noble deeds done by boys and girls in the United States, and advertise all kinds of goods sold by American firms. Because of this our children are taught to think that "Far away pastures look green" and that the only place on earth, horses and heroines are raised is on the other side of the 49th parallel.

We do not blame the United States firms for this. In fact we admire their enterprise and loyalty. But it does seem passing strange that in a country the size of Canada, with all its possibilities and advantages, this sort of thing should be continued indefinitely. The ques-

tion is, who is going to make the move to change the order of things. Our answer is those who are effected by it, and in these cases it is our schools and Sunday schools.

The province of Alberta purchased \$57,884.94 worth of liquor direct from distillers, according to a reply made in the house Tuesday by Attorney-General J. R. Boyle to Dr. G. D. Stanley, High River. This, together with the amount confiscated by the government en route from Montana to various points in the province, makes it look as though Alberta is not so bone dry after all.

Sir Sam Hughes says Sir Joseph Flavell owns the union government. That some one owns it we have surmised, for some time and since Flavell has so much money under union government it is only reasonable to suppose that he is at least one of the shareholders in the company that owns it.

Daylight Saving

Has Fewer Accidents

Secretary Morrison cited statistics on industrial accidents in Pennsylvania, showing that in 1918, under operation of the daylight saving law, the number of accidents was 83,000 less than in 1917. This was due, he said, to the fact that the late afternoon hours, when physical energy is at its lowest ebb, have been eliminated from the work day and given over to recreation.

WANTS EMPLOYMENT

AGENCIES ELIMINATED.

Premier Charles Stewart read in the legislature a telegram stating that the federal government wanted Bill 13, putting private employment agencies out of business, passed. This measure is in connection with the bill establishing provincial employment agencies to co-operate with the federal agencies.

Seed Grain Bill to Provide for Feed

In connection with the various seed grain acts, Opposition Leader George Howley made the request in the house Tuesday that all the measures be considered together, with reference to providing that some portion of the advances might be for the purpose of buying feed as well as seed grain. Mr. Howley said that the object of the measures was to aid farmers in seeding their land, and if they did not have the money to purchase seed grain they obviously would not have money to purchase feed for their horses working on the land.

Attorney-General J. R. Boyle asked that bill 33, providing for seed grain advances, be left over for this purpose, stating that an amendment would be offered proposing that where \$50 is advanced for seed oats that \$20 of the amount shall be permitted to be spent for feed oats, as it would obviously be wrong to use the high priced seedling oats for feed for horses where farmers had a crop failure and had no oats for either seed or feed.

All of the bills were voted over for the purpose of considering future amendments.

Thinks West Will Get

Natural Resources

On returning from the east Premier Martin of Saskatchewan, said he thought the natural resources would be given to the western provinces in the near future.

He was unable to state exactly upon what terms but was inclined to the belief that the return of the resources would be conditional on the western provinces accepting a smaller annual subsidy from the Dominion, but he was hopeful the decrease might not be very great.

Mr. Martin was also inclined to think that the claims of Ontario and Quebec for increased subsidies in the event of the natural resources being returned to the western provinces would not be considered, but the maritime provinces were in different position and he thought the Dominion government would require to make some re-arrangement of the financial terms with those provinces.

As Dangerous as

Defeat by Germany

Addressing a mass meeting at Walford Saturday, Right Hon. James Henry Thomas, labor member of parliament for Derby, and general secretary of the national union of railwaymen, said:

"The next three weeks may determine whether our country, after emerging successfully from the world war, can avoid an industrial dispute whose consequences may be almost as dangerous as defeat by Germany. It is essential that all classes shall understand the situation and without class prejudice, or bias, recognize their responsibility which they cannot escape."

INFLUENZA CLAIMS

AS MANY AS WAR.

In the last four years about 700,000 of the pick of the British race were lost on the battlefields, declared Dr. Christopher Addison, president of the local government board, in moving in the house of commons Wednesday the second reading of the bill to create a ministry of health, and in October, November and December, of last year the mortality from influenza in the United Kingdom was as high as average monthly losses during the war.

GOLD WINNERS AT CROW'S

The second gold drawing took place at Crow's Cigar store last Saturday night. Mr. Thos. Fountain did the drawing, which resulted in W. H. Hatcher winning the \$10,000 gold piece and H. W. Harper the \$5,000 one.

Mr. Crow has announced that he will give the same prizes for the month of March, everyone purchasing 50 cents worth of goods getting a number which entitles him to a chance to win one or both prizes.

LARGE OIL FIELDS

LOCATED IN ENGLAND.

Important discoveries of fuel oil have been made on Duke of Devonshire's estate at Chesterfield, Derbyshire, where exploration has been carried on on a large scale since the official sanction. The supplies are described as vast. Experts are estimated that several other rich oil fields exist in the country.

An authority says there is more oil in England than in the state of Pennsylvania.

If you have anything to sell advertise it in the Review.

ST. LOUIS FUR EXCHANGE

BUYS DIRECT FROM TRAPPER.

Due to certain complaints being brought to the notice of the St. Louis Fur Exchange, Seventh and Chestnut streets, St. Louis, Missouri, of unsatisfactory grading of furs as made by some of the advertising fur houses of that market, where in January over ten million dollars worth of furs were sold, they are now also receiving and grading furs from the trapper direct, and are recognized and registered under license P. B. F. 80 with the United States War Trade Board and all of the Collectors of Customs, thus insuring free passage of furs when address to them with the words "Raw furs of Canadian origin" on the package or shipping tag. Their advertisement appears on page 2.

Government to Help

Finance Municipalities

A thorough investigation into all the financial problems that beset and hedge about the municipalities of the province is promised in an act presented to the legislature Monday afternoon by Hon. A. G. MacKay, minister of municipal affairs.

The act in itself is a decidedly advanced measure of legislation. Stripped of detail it aims to provide a commission directly under the provincial government to take up all the financial troubles of sorely harassed municipalities, and by investigation, suggestion, compromise and recommendation, attempt to bring relief and order out of confusion and chaos.

Putting First

Things First

"First just, then generous." The saying is old-fashioned—almost too blunt to please us today, for we have swung far to the extreme. The accepted thing today with the majority of people is to spend more than they earn, spend before the money is earned and not grieve overmuch if some portion of the account is never paid.

That is too much like death bed repentances. They are apologies for past misdeeds but they do not wipe out the obligations incurred by those misdeeds. They simply transfer the burden to innocent and, probably, already overladen shoulders. Those repentances and those unpaid debts, those debts incurred without any good reason are the work of the "generous" souls—generous with what was not theirs.

There is one lesson which the average business girl needs to take to heart it is that of spending only from what she has in hand, spending less than she earns, waiting till next week, next month or it may be next year for what she can not purchase with cash. It takes—well just plain old-fashioned honesty. By the time the business girl who is on a small salary and trying to dress as though she received infinitely more—by the time she has chased a War Savings Stamp, or filled a few books with Thrift Stamps and has learned the taste of money at interest she will never again go back to "days of toil and nights devoid of ease." She will shoulder her own burden, wear what she can pay for in cash—collect her interest and smile.

U. S. Makes Public

Russian Conditions

Additional light on the situation in the portions of Russia under Bolshevik control is given by a summary of reports received recently from a number of refugees who passed through Helsinki on their way from Moscow to Stockholm. The summary was made public by the state department because of the serious conflicting accounts of conditions which have been received recently.

"The party at Helsinki," said the statement, "was composed of French, British, Belgian and Italian citizens, most of them Red Cross workers. The reports all agree as to the excessive cost of all necessities and the scarcity of food. Dog meat is quoted at four rubles (two dollars) a pound, horse meat at fifteen rubles a pound, pork at 60 rubles, and bread at 14 rubles. The country is practically stripped of all manufactured articles, especially wearing apparel, and all grain and supplies are requisitioned by the soviet government from peasants, who receive nothing in return."

Notice has been served on the bankers of the province of Ontario by Attorney-General Hon. E. B. Lucas, that they must at once get back to the market value of the standard loaf of 14 or 16 ounces. This size loaf prevailed prior to the Canada Food Board issuing orders which superseded the Ontario law, but this rule was rescinded on Feb. 10 by order-in-council.

Says Famine In

Europe Inevitable

Sir John Dooling, who recently resigned his position as British representative on the various inter-allied organizations for the distribution of food, is quoted by the London Times, in an interview as saying that it will be extremely difficult to prevent widespread famine in southeastern Europe, Germany and Poland. Financial relief is available, he said, but the present condition is due to the shortage in shipping.

Great Britain is, still compelled to supply France and Italy out of her resources, and the lack of food and fuel in Italy is causing the greatest anxiety.

The only possibility of avoiding disaster, said Sir John, lies in the American shipping board increasing the number of ships available, which it is reasonable to hope they will do.

Sir John attributed the shortage of tonnage mainly to the slackening of efforts of workmen throughout the world both in loading and repairing ships.

U. S. Government to

Retain Railroads

The United States government yesterday determined to retain control of the railroad administration, and have the railroads finance themselves for the next few months, through private loans in the open markets, or through advances by the war finances corporation.

Efforts will be made to obtain operations on a normal scale and carry on as much of the improvement program as possible, in order to avoid throwing employees out of work, or otherwise disturbing industrial conditions. No attempt will be made to solve the problem by raising rates.

Bestow All Tokens

To City of Ottawa

Sir Wilfrid Laurier maintained his pride and interest in Ottawa to the last, says a late Ottawa dispatch. It is understood that a clause in his will dedicates to the capital city all the tokens of honor bestowed on him during his distinguished public career.

Many of these are of almost priceless value. They include the testimonials conveying the freedom of cities in the United Kingdom. The cabinet containing the freedom of the city of Edinburgh, one of the most beautiful of the collection, is solidly encrusted with diamonds.

Municipalities Show

Lack of Interest

It has been impossible to get any large number of municipalities to send in schemes of proposed secondary or feeder roads for construction under the Highways Act of last year. Premier Charles Stewart told the House. The subject was brought up by Opposition Leader George Howley, who demanded to see a map being prepared by the public works department of proposed main line and feeder roads throughout the province.

PLAN TO CRIPPLE

BOLSHEVIST FINANCE.

Foreign exchange transactions between the United States and Russia have been postponed by the federal reserve board, and similar action has been taken by the authorities of Great Britain and France. It is understood that the purpose of the step is to stop the financing of Bolshevik propaganda.

WILSON TO RETURN

TO PARIS AT ONCE.

As a result of exchange of cables between President Wilson and the United States delegation, plans were completed for the president's return to Paris and for the early assembling thereafter of the congress of peace, with German delegates present. He will land at Brest March 13 or 14, and come direct to Paris.

Representatives of Great Britain, the United States, France and of the other powers, have departed for Spa to comply with the German arrangements for the release of German ships in German ports and certain German vessels in neutral ports.

The total Allied naval losses in the war aggregated 805,000 tons, according to an estimate sent by Reuters' Paris correspondent. Of this loss the British portion was 556,000 tons. The central powers lost 415,000 tons, but the German total, which was 350,000 tons, does not cover the huge tonnage surrendered under the armistice terms.
